Preface

This is the text of the preface, with acknowledgments, dedication, etc.

1.0 Chapter1

2.0 Introduction

We begin by saying that we do not really have much to say, but for the sake of clarity we divide our topic in chapters.

An example of a table

Table 1: Caption: My Table

Column 1	Column 2	Column 3	
Row 1	Row 1	Row 1	Another Row
Row 2	Row 2	Row 2	Yup

2.1 First Section

The topic treated here, given its complexity, merits an additional subdivision.

2.1.1 First Subsection

This is well-known topic, and we shall discuss it no more.

2.2 Testing the template

I am trying to show how LaTeX works. But I don't want to start a new paragraph yet. [1]

3.0 Second chapter

The topics treated in this chapter can be somewhat obscure. For humanitarian considerations, the chapter will be subdivided.

3.1 First Section

This is a citation example for the Bibliography section.[2]

3.1.1 First subsection of the section

$$1 + e^{i\pi} = 0. \tag{1}$$

3.1.1.1 First subsubsection of the subsection

3.1.2 Second subsection of the section

This is a very complicated topic and we shall discuss it in our next paper.[3] ¹

3.1.2.1 Second subsubsection of the subsection

4.0 Conclusions

This is the third chapter of the present dissertation.[7] It is more interesting than the first two, for it is the last one.[8]
